

REBECCA

MEDICINAL PLANT SCIENTIST

BSC Biomedical Science:

Masters in medicinal natural products and phytochemistry

Diploma in hypnotherapy

Rebecca is a medicinal plant scientist and holistic therapist aiming to bridge the gaps between herbal medicines and science.

She completed her degree in human biology purely with the intention of going into herbal medicine after, and has a masters in medicinal natural products and phytochemistry.

She is currently a researcher at Kew Gardens, an editor for the Journal of Herbal Medicine and teacher at a herbalism school. She is also in the process of formulating a herbal medicine product line.
